

Carlisle Beekeepers Association

a local branch of Cumbria Beekeepers Association

In 1945 Britain had 80,000 hectares of commercial orchard

By 2004 this had reduced to only 20,000 hectares of commercial orchard

Orchards

the UK has only 20,000 hectares of commercial orchard

Bees have traditionally been kept in orchards

Fruit trees need bees to pollinate the blossom

Without pollination there would be no fruit
